ABOUT ME

Aspiring Software Engineer with a strong foundation in full-stack development. Skilled in React.js, Node.js, Firebase, and MongoDB for building scalable web applications. Passionate about problem-solving, backend optimization, and continuously learning to create innovative solutions.

SKILLS

- **Front-End:** HTML, CSS, React.js, Tailwind CSS, DaisyUI
- **Back-End:** Node.js, Express.js, Firebase, MongoDB, MySQL, API integration
- **Programming:** C++, Python, JavaScript
- **Artificial Intelligence (AI):** Machine Learning (ML), Deep Learning (DL)
- **Tools & Technologies:** Git, GitHub, Render, Netlify, VS Code.
- **Operating System:** Linux, Windows
- **Problem Solving:** Debugging, troubleshooting, and optimizing code
- **Soft Skills:** Team Collaboration, Communication (Bangla, English), Time Management

PROJECTS

1. Instant Chef (Backend): Recipe platform that suggests meals based on available ingredients, featuring an AI assistant and user favorites. Includes an admin panel for CRUD operations.

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, Firebase Authentication, Axios, Tailwind CSS | [Live Link](#) | [Github](#)

2. RoyalNest: Luxury real estate web app with property browsing, filtering, and secure user authentication.

Technologies: React.js, Firebase Authentication, Tailwind CSS, DaisyUI, AOS package, React Hook Form | [Live Link](#) | [Github](#)

3. Book Vibe Created a book discovery app with personalized reading lists and tracking features.

Technologies: React.js, Tailwind CSS, DaisyUI, Figma | [Live Link](#) | [Github](#)

EDUCATION

BANGLADESH ARMY INTERNATIONAL UNIVERSITY OF SCIENCE AND TECHNOLOGY (BAIUST)

BSC. in Computer Science and Engineering

Graduation Date: Feb, 2026

ACHIEVEMENT

2nd Runner-Up, BAIUST CSE Fest Hackathon 2025

Backend Lead – Team BAIUST_Troopers

Built a real-time web application using the MERN stack under a 24-hour constraint, demonstrating strong problem-solving and teamwork.

ADDITIONAL	• Cohort Lead, BAIUST Internship Program – Mentored and guided 4 teams, supporting learning and project development. • Volunteer, BAIUST CSE Fest 2022 – Assisted in organizing and managing event activities. • Volunteer, BAIUST IUCP 2025 – Assisted in organizing and managing event activities.
-------------------	---

RESEARCH	Capstone Project (Team Leader), Fall 2025 – Real-Time Speech Emotion Recognition Using CNN-BiGRU-Attention: A Study of Feature Richness, Architectural Complexity, and Live Deployment Led development of a deep learning-based SER system using CNN-BiGRU-Attention and multi-feature analysis. Evaluated on benchmark and real-world data, achieving strong generalization, real-time performance, and ~43 ms average inference latency per prediction.
